Secure Areas for DDP/FI

1. This Office has reviewed the attached request in compliance with memorandum dated 7 June 1962 from Deputy Director (Support), Subject: Request for Secure Areas In Headquarters Building.

2. A physical inspection of Room 4C24, Langley, revealed that much better space utilization could be achieved through conversion from 4 drawer combination locked safes to steel shelving. In addition, conversion to shelving would provide a more efficient means of filing and retrieving records and allow for expansion.

3. The above points have been discussed with Chief Support, FI.

4. I recommend the approval of this request on the condition that conversion to shelf filing is acceptable.
